To our Garden Friends:

First I wish to thank you for your liberal patronage in the past.

This year we will endeavor to give you even better service and higher class roots and plants than ever before.

"One is nearer God's Heart in a Garden than any where else on earth."

ORDER EARLY TO AVOID DISAPPOINTMENT

MEMBER OF:

National Chrysanthemum Society, Camden Horticulture Society and South Jersey Horticulture Society.

Meet us at the National Chrysanthemum Show, the Camden Horticulture Society Show and the South Jersey Horticulture Show at Clementon, N. J., Fall 1947.

CHRYSANTHEMUM CULTURE

A few do's and don'ts: Plant in well prepared soil that has had a coat of manure the previous fall or winter if you have it, or an application of commercial fertilizer worked into the soil 10 days before planting. Side dress with any fertilizer about July 10th, again when buds appear just before a rain. Keep well cultivated, pinch out top when 6 or 8 inches high, again after the side branches have made good growth. Not after July 20th it might be too late for buds to set. Don't plant too near a building or tall trees. Give them room enough to develop and produce the blooms you expect. By all means dig up your old clump each Spring, divide using the new shoots, destroy the old core. You will be rewarded for your labor.

1947 CHRYSANTHEMUM INTRODUCTIONS

ALLEN FELTON (Felton), D. An excellent new double lemon yellow chrysanthemum you will want in your garden or if a cut flower grower don't miss it. We have watched this creation for three years. We are distributing this fine mum this season.....\$1.00 per plant, doz. \$10.00

CATHERINE COLLINS. We believe the best early yellow pompon to date. Blooms from September 10 until killing frost. 3' stem. A fine florist variety. Extremely hardy.....75c each, doz. \$8.00

NATIONAL VELVET, (Felton). A 3" pompon. A strong growing plant, 3' tall. Stiff stem. We believe this surpassed Red Velvet in every way. Blooms 10 days earlier, a bigger flower, better bloomer. We are introducing this grand mum at \$1.00 each, \$10.00 doz. Don't miss it.

SOMETHING NEW, (Bristol).. The "Anemone Flowered" Korean Princess ** Plant Pat. 640. The shapely blossoms, 2½" across are rich bronze red on opening with a perfectly formed golden-bronze cushion center, changing to soft strawberry crimson as they mature; a tapestry effect, charming as it is unique. It is a bushy, hard, 2 foot plant with many blossoms on the well branched stems, full flower October 15th. Each \$1.00, doz. \$10.00.

NEW GIANT EARLY HARDY ENGLISH CHRYSANTHEMUMS

The early English Chrysanthemums are a new race of Chrysanthemums that originated in England. Some of the West Coast Canadian growers first imported them from England. Then several growers started growing them in the State of Washington. They are equal in hardiness with any garden chrysanthemum and they are rated so far superior to the old garden chrysanthemum that there is no comparison.

We have found that early planting of the plants or divisions by June 1st in our locality, pinching the tops out after they reach a height of 6 to 8 inches, and disbudding down to 8 to 12 blooms per plant make them bloom much earlier and give those immense flowers, on good sturdy stems. We have found these mums hardy here in New Jersey without protection, and feel they are as hardy as any of the regular garden chrysanthemums.

E. EARLY NAME AND DESCRIPTION—3 AT DOZ. RATE	M. MEDIUM L. LATE	HEIGHT IN INCHES	BLOOMING DATE	PRICE

NORTHLAND'S DAISIES

(Trade Mark by Styer's Nurseries)

The Northland Daisies are hybrid Chrysanthemums developed by Styer's Nurseries. They produce fine, well branched plants seldom injured by insects. They will grow well in any soil with reasonable drainage, respond well to fertilization and must not have water standing about the crown in winter. The late blooming varieties are not recommended for locations North of Philadelphia or New York. We are offering them this season, thanks to Styer's Nurseries for their permission.

UNSOLICITED TESTIMONIES

From Huntingdon Beach, Calif.

Dears Sirs,

Enclosed please find stamps for plants sent. They arrived in fine shape. Thank you. W.B.F.

From Roanoke, Va.

Dear Sir,

Please find enclosed the stamps for postage on package I received so promptly. Never have I gotten such nice plants by mail. I know now where to deal. Thanking you again for the nice box of plants and for the extra one. C.H.J.

From Beaumont, Texas

Dear Sir,

In regards to the Mums I must say that this is the first time that I have received plants as far away as Magnolia, N. J. to Beaumont, Texas, and not even have a wilted leaf among the plants for in the past we have expected to lose one in every five plants. I will not hesitate to recommend your plants both for size and the care that is taken in packing them for shipment. And I should know as I have experimented for the past 6 years with plants and getting them shipped from almost every state in the United States. R.E.G.

From West Barrington, R. I.

I had the most magnificent showing of Mums I got from you. If you recall a railroad strike was on and they were delayed eight days after you shipped them but all recovered and were just grand. G.E.L.

TERMS OF SALE

True to name or cheerfully replaced without cost to purchaser.

Cash with order. If sold out of any variety on your order, we will refund the money. No substitution unless ordered. Please name second choice.

STATE AND GOVERNMENT INSPECTED.
